Masinga PL

Software Developer | Data Science & AI Enthusiast

Technical Skills

Programming Languages: Java (OOP, Multithreading/Concurrency), Python

Data Science & Analytics: Pandas, EDA, Data Cleaning & Preprocessing,
Machine Learning Classification Workflows, Model Evaluation

Tools & Environments: NetBeans IDE, Git/Version Control,
Productivity & AI Tools (Prompt Engineering)

Additional: Systems Programming, Mobile Game Development Pipelines
(Google Play deployment), Customer Interaction, Stock Control, Computer Literacy

Programs, Certifications & Virtual Experience

MWR CyberSec Virtual Internship - Completed (16-Week Programme)

Practical exposure to cybersecurity concepts and technical security workflows
over a four-month virtual curriculum.

CAPACITI AI Skills Acceleration Programme - Participant

Applied competencies in artificial intelligence tools and digital career readiness.

Google AI Essentials Specialization - Completed

Foundational AI concepts, prompt engineering, responsible AI usage and
workflow optimization.
